

ACSL-flightstack/include  
/flightstack/user\_defined  
\_trajectory/user\_defined  
\_trajectory.hpp

```
graph TD; A["ACSL-flightstack/include/flightstack/user_defined_trajectory/user_defined_trajectory.hpp"] --> B["cmath"]; A --> C["Eigen/Dense"];
```

The diagram illustrates the dependencies of the header file `ACSL-flightstack/include/flightstack/user_defined_trajectory/user_defined_trajectory.hpp`. Two blue arrows point from the bottom of the top box to the boxes below, indicating that the header file depends on `cmath` and `Eigen/Dense`.
