

ACSL-flightstack/include  
/flightstack/control/mrac  
/mrac\_gains.hpp

```
graph TD; A["ACSL-flightstack/include<br>/flightstack/control/mrac<br>/mrac_gains.hpp"] --> B["cmath"]; A --> C["algorithm"]; A --> D["Eigen/Dense"];
```

The diagram illustrates the dependencies of the header file `mrac_gains.hpp`. A central box at the top lists the file path. Three arrows point downwards from this box to three separate boxes below, each representing a dependency: `cmath`, `algorithm`, and `Eigen/Dense`.
